

24 January 1974

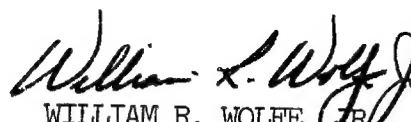

Dear General Walters,

From the professional and personal points of view the time which you and your people devoted to my visit at Langley is deeply appreciated. Mr. Phillips and his staff provided highly illuminating briefings and discussion of areas of mutual interest.

The delightful luncheon clearly indicated your influence which would be most welcome in the Chairman's Mess!

Again, many thanks to you and to all those who contributed to a most profitable and enjoyable visit.

Sincerely yours,

  
WILLIAM R. WOLFE, JR.,  
Major General, USA
